# About the Author

**Srirangan** is a passionate programmer with nine years of experience in freelance, open source, and Enterprise. He has executed projects in a broad range of technologies including Python, PHP, Scala, Java, Adobe Flex, HTML5, Javascript, and so on.

He is the creator of Review19 (<http://www.review19.com>); an innovative, real-time Agile team collaboration and project management tool. He is also involved with India Defence (<http://www.indiadefence.in>) which is India's largest web property dedicated to the defense sector.

Sri is a senior consultant in Inphina Technologies (<http://www.inphina.com>), a rapidly expanding, high-end technology startup in New Delhi focusing on cloud computing (Google App Engine, Hadoop) and emerging technologies.

He is an enthusiastic open source contributor and his open source projects are available on GitHub and BitBucket:

# About the Reviewer

**Carsten Ziegeler** is a senior developer and software architect for JEE and portal applications at Adobe Systems. He is a member of the Apache Software Foundation and has been participating for more than twenty years in several open source projects. Carsten is a member of several Apache communities and project management committees like Felix, Sling, and Portals. In addition, Carsten is frequently writing articles, reviewing books, and presenting at various conferences.

**Emmanuel Venisse** has been developing, architecting, and integrating J2EE applications for thirteen years for banks, government, holiday company projects, and so on. For the last six years, he has worked as a freelancer. For the last eight years, he's been working, in his spare time, on Apache Maven, Continuum and Archiva projects as a core developer and he's also the Continuum project leader. He has contributed to the majority of books written about Apache Maven.

## Support files, eBooks, discount offers and more

You might want to visit [www.PacktPub.com](http://www.PacktPub.com) for support files and downloads related to your book.

Did you know that Packt offers eBook versions of every book published, with PDF and ePub files available? You can upgrade to the eBook version at [www.PacktPub.com](http://www.PacktPub.com) and as a print book customer, you are entitled to a discount on the eBook copy. Get in touch with us at [service@packtpub.com](mailto:service@packtpub.com) for more details.

At [www.PacktPub.com](http://www.PacktPub.com), you can also read a collection of free technical articles, sign up for a range of free newsletters and receive exclusive discounts and offers on Packt books and eBooks.

<http://PacktLib.PacktPub.com>

Do you need instant solutions to your IT questions? PacktLib is Packt's online digital book library. Here, you can access, read and search across Packt's entire library of books.

## Why subscribe?

- ▶ Fully searchable across every book published by Packt
- ▶ Copy and paste, print and bookmark content
- ▶ On demand and accessible via web browser

## Free access for Packt account holders

If you have an account with Packt at [www.PacktPub.com](http://www.PacktPub.com), you can use this to access PacktLib today and view nine entirely free books. Simply use your login credentials for immediate access.

# Table of Contents

<b>Preface</b>	<b>1</b>
<b>Chapter 1: Basics of Apache Maven</b>	<b>7</b>
Setting up Apache Maven on Windows	8
Setting up Apache Maven on Linux	11
Setting up Apache Maven on Mac	12
Verifying the Apache Maven installation	13
Creating a new project	14
Compiling and testing a project	17
Understanding the Project Object Model	19
Understanding the build lifecycle	21
Understanding build profiles	22
<b>Chapter 2: Software Engineering Techniques</b>	<b>25</b>
Build automation	26
Project modularization	28
Dependency management	31
Source code quality checks	34
Test Driven Development	37
Acceptance testing automation	40
Deployment automation	44
<b>Chapter 3: Agile Team Collaboration</b>	<b>47</b>
Creating centralized remote repositories	48
Performing continuous integration with Hudson	54
Integrating source code management	57
Team integration with Apache Maven	60
Implementing environment integration	64
Distributed development	67
Working in offline mode	69

<b>Chapter 4: Reporting and Documentation</b>	<b>73</b>
Documenting with a Maven site	74
Generating Javadocs with Maven	77
Generating unit test reports	81
Generating code coverage reports	85
Generating code quality reports	87
Setting up the Maven dashboard	90
<b>Chapter 5: Java Development with Maven</b>	<b>95</b>
Building a web application	96
Running a web application	100
Enterprise Java development with Maven	102
Using Spring Framework with Maven	106
Using Hibernate persistence with Maven	112
Using Seam Framework with Maven	119
<b>Chapter 6: Google Development with Maven</b>	<b>125</b>
Setting up the Android development environment	126
Developing an Android application	128
Testing and debugging an Android application	132
Developing a Google Web Toolkit application	134
Testing and debugging a Google Web Toolkit application	139
Developing a Google App Engine application	142
<b>Chapter 7: Scala, Groovy, and Flex</b>	<b>147</b>
Integrating Scala development with Maven	148
Integrating Groovy development with Maven	153
Integrating Flex development with Maven	156
<b>Chapter 8: IDE Integration</b>	<b>163</b>
Creating a Maven project with Eclipse 3.7	164
Importing a Maven project with Eclipse 3.7	168
Creating a Maven project with NetBeans 7	172
Importing a Maven project with NetBeans 7	177
Creating a Maven project with IntelliJ IDEA 10.5	179
Importing a Maven project with IntelliJ IDEA 10.5	183

<b>Chapter 9: Extending Apache Maven</b>	<b>187</b>
<b>Creating a Maven plugin using Java</b>	<b>188</b>
<b>Making your Java Maven plugin useful</b>	<b>192</b>
<b>Documenting your Maven plugin</b>	<b>196</b>
<b>Creating a Maven plugin using Ant</b>	<b>198</b>
<b>Creating a Maven plugin using JRuby</b>	<b>200</b>
<b>Index</b>	<b>203</b>

---
