INTRODUCTION

Tarot Cards possess large and at the same time weird power that cannot be explained. And it is not only the symbols depicted on them, although they reflect ancient wisdom and awaken our curiosity and fantasy.

It's all about cards themselves, which, spread in a certain way, can resurrect long-past joys and sadness in us, make us take a fresh look at the current situation and reflect our hopes for the future, and most importantly - they give advice and indicate the right way to go in order to gain well-being and get out of a difficult situation, they can warn and teach a lesson.

For a better understanding, for a deeper interpretation, I created my deck KARINA TAROT, where I drew all the cards meanings as deeply as pos-

sible, so that one look at the card was enough to understand at once what it could speak about. Besides, I have added different symbols to each card that will enable you to interpret the meaning of each card more deeply without memorizing them.

All illustrations in this deck are series of watercolors by the famous artist Peresvet Bayadzhan, and the author of the unique reverse side is Vasilisa Glibina. Without their help, I could not have conveyed to you the essence and content of the most speaking deck in the world! I am sincerely grateful to them for this!

The deck also contains 9 additional unique Arcanas that more accurately reflect the essence of what is happening and answer the questions "WHY?," "WHAT EXACTLY?," "HOW?" AND "WHAT TO DO?," and in this book I give the most detailed interpretation of them.

Believe me, the additional Arcanas are an indispensable tool! And with their help you will be able to unlock the veils of all mysteries and understand the essence of hidden.

The deck uniqueness is not only in the accuracy of drawing the images, having considered which you can already read the meaning of the card without even studying the instructions to it; it also collects in the form of informational icons all necessary information about astrological and planetary correspondence, time of year, time of day, aura of child or adult, number of children and elements, that each card corresponds to.

This information makes your predictions on this deck more accurate and facilitates the interpretation of layouts, enriching the predictive meaning.

The deck is suitable both for those who have just begun studying the Tarot system and for experienced Tarot readers, since the deck KARINA TAROT is currently the most accurate prediction tool of all previously known Tarot card decks.

I want to draw your attention to the fact that I do not use reversed meanings of cards in my interpretations and I never reverse cards themselves. Why? Because in the end, the spread anyway shows those events and gives those tips that are contained in the direct position of the cards. Therefore, I do my readings using only the direct position of cards, which I advise you too. That is why you will not find reversed cards interpretations.

Remember once and forever: divination is always serious! Even if you're doing a reading for fun! It re-

quires concentration. Never do a ~~reading in a hurry, never do a reading~~ after taking alcohol (or to a person who is drunk).

You must be calm - all emotions are left “behind the door.” Once you have picked the cards everything has disappeared - there is only a client, cards and you as a reader. You are the mirror that reflects the received answer to a person.

Use for good!

Yours, KARINA TAROT.

AND REMEMBER:
HAPPINESS EXISTS!
